

# FRIGID B\*TCHES

A play by Laura Snow & Tierney Formanek

## LIVE FOREVER!

Cryonic lab employees, Katie and Mosi, bond over their mind-numbing jobs selling the future to wealthy clientele (and their organs on the black market), as they redefine morality in this dark comedy about love, death and liquid nitrogen. In co-production with SST Productions and presented at the Sidewalk Studio Theatre, FRIGID BITCHES joins the 2018 Hollywood Fringe Festival, holding a preview performance Saturday, June 2nd, opening Friday, June 8th for a two-weekend run, and closing Saturday, June 16th.

## ABOUT THE WRITERS

Laura and Tierney met at the University of Arizona where they began writing and producing together. FRIGID BITCHES is their debut collaboration as a writing duo. Currently, Tierney works for the HBO original series, WESTWORLD. Laura works at Mandeville Films/TV, most recently known for BEAUTY AND THE BEAST (2017) and currently producing four TV pilots for ABC.
